Our Mission Is To BUILD Strong Bonds Of Trust

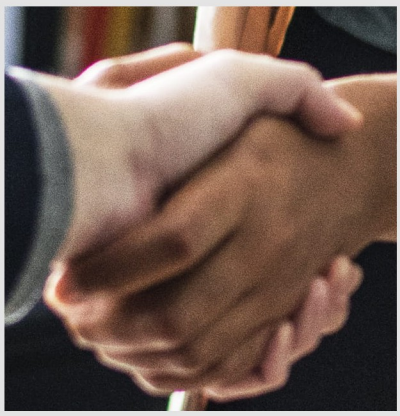

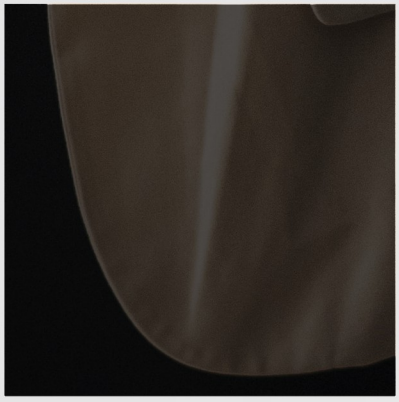

Who we Are

Build-U was founded in Greece in 2001 under the brand name of Triris Tech. Later, it established ProGroup Hellas P.C.

Our company specializes in the construction, repair, and maintenance of pleasure boats. We also supply a wide range of products and materials for all types of pleasure boats.

Throughout our years of operation, we have participated in numerous major projects, gaining extensive experience, technical expertise, and industry know-how.

Our commitment to quality, personalized service, and attention to detail has helped us build long-term relationships based on trust.

Committed to Continuous Improvement

At our company, excellence is an ongoing journey. We are committed to staying at the forefront of the industry by embracing innovation, adopting the latest technologies, and continuously expanding our expertise.

Through ongoing professional training, industry seminars, and specialized certifications, our team remains up to date with the most advanced techniques and best practices. This commitment enables us to deliver high-quality, reliable, and future-ready solutions, ensuring the highest standards of quality and service in every project we undertake.

We believe that continuous learning and innovation are the foundation of lasting quality and customer satisfaction.

We are committed to delivering the highest standards of workmanship, through precision, reliability, and attention to detail.

We build lasting relationships with our clients through transparency, integrity, and consistent professional service.

We continuously invest in training, innovation, and the latest technologies to provide advanced solutions that meet the highest industry standards.

build-U ™

innovation of laser technology

Fairing - Painting

The company is envisioned as a way to integrate a set of different disciplines regarding painting projects on Mega Yachts, making it easier for every yacht owner to have a one-stop solution when building or refitting their yachts.

info@build-U.eu

Laser Blasting

Our company specializes in the application of laser blasting technology, successfully introduced and established in the Dutch yachting industry.It is an advanced, precise, and environmentally friendly solution for yacht surface cleaning and preparation. It efficiently removes rust, oxidation, and other contaminants without damaging the underlying material. This non-contact, chemical-free process minimizes waste, reduces maintenance time, and helps preserve the appearance, integrity, and long-term value of the yacht, making it an ideal choice for maintenance, restoration, and refit projects.
